

TO FIGHT TO THE BITTER END

IS RUSSIA'S DETERMINATION

General Stoessel is Reported to Have Asked for an Armistice at Port Arthur. Japs on the offensive at Mukden

St. Petersburg, November 11.—General Sakharoff in a despatch dated yesterday reports the repulse of a Japanese attack made on November 8 on the Russian positions before Sischinpu. No fighting was reported to have occurred yesterday. The war office has no late advices from Port Arthur, and nothing is known here of the report that General Stoessel had asked for an armistice, but if so, it is considered that it must have been to bury the dead and not in view of a capitulation.

Mukden, November 7.—The Japanese to-day assumed the offensive on the left bank of the Han river and

occupied three villages. The Russians however drove them out and again established their original line of defense. Vice-Admiral Skrydloff arrived here today.

St. Petersburg, November 11.—Viceroy Alexieff arrived in St. Petersburg this evening.

St. Petersburg, November 11.—Russia has announced that under no circumstance will she consent to mediation. This means war to the bitter death.

It is stated that fifteen expert mechanics have left for the Orient proving that the torpedo boats shipped from here recently with so much secrecy were for Russia in the Far East.

TREATY WITH FRANCE

Paris, France, November 11.—It is announced that a treaty with Great Britain, amply settling existing difficulties in Egypt, Morocco and Newfoundland has been agreed upon.

FOUR MEN KILLED

IN A STREET FIGHT

By Desperadoes. Sheriff's posse has Run them to Cover in the Mountains

Hunting on, Va., November 11.—In a street duel four men were killed by desperadoes, including two policemen. A sheriff's posse of two hundred citizens have chased the desperadoes into the mountains.

FIRES IN NEW YORK

OF INCENDIARY ORIGIN

Several Lives Lost and a large Number Injured and Homeless

New York, November 11.—Three persons lost their lives, twenty were injured, and nearly half a hundred were overcome with smoke, and an equal number were temporarily homeless as the result of a series of fires in various parts of the greater city to-day. In nearly every case the fire was in the tenement houses occupied by a large number of families and at least two of them are thought to have been started by incendiaries.

A STRIKE AVERTED

New York, N. Y., November 11.—A strike which threatened to affect all union workmen of the International Paper Company in the east has been averted by an agreement which was reached by the representatives of the paper workers and the company in this city to-day.

CAUGHT ON A BRIDGE

BY A FREIGHT TRAIN

Man saved his wife but was instantly killed himself. Train did not see Signals

Amsterdam, N. Y., November 10th.—While Edward Simmons and wife of Rotterdam Junction were walking across the Boston and Maine bridge over the Mohawk river at that place early this morning returning from Schenectady, they were run down by a freight train. Simmons is a railroad man and endeavored to slow up the train with his lantern but to no avail. He succeeded in placing his wife in safety on an abutment but was himself ground to pieces.

PARKER'S MESSAGE

TARIFF FED TRUSTS

Are Bleeding the Nation and the people will have to look to the Democratic Party for Relief

Esopus, N. Y., November 10th.—Judge Parker last night gave the press an open letter addressed to the Democrats of the nation in which he thinks those in charge of the campaign work and declares that the people will soon realize that the tariff fed trusts are absorbing the wealth of the nation. He said that when that time comes the people will turn to the Democratic party for relief.

Fifty ladies sat at the banquet of the Ladies of the Maccabees Wednesday evening in Sandison's Hall. The hall decorations were in keeping with the occasion. The menu was all that could be desired, and the evening was spent in music, song and story. From a geographical point of view the Edmonton Hive has the distinction of being the most northern hive in Canada; while Skagway Hive, of Skagway, Alaska, is the most northerly in the United States. Therefore Edmonton Hive has selected Skagway Hive as its particular rival, and is notifying them that they intend to outdo them in the number of their membership.

SUPREME COURT

Three cases came up at the Supreme Court yesterday before Chief Justice Sifton.

A Chinaman, Mah Kee, was charged with running a gambling joint over the laundry adjoining Looby's harness shop. The evidence produced showed that Mah Kee, with a number of his companions were arrested on the evening of July 10 last by Chief of Police Dean and Constable McCallum and Constable Turgeon. A week previous Chief Dean had entered Mah Kee's premises and discovered them in the midst of a game of fan tan. A couple of days later the Chinaman stopped the chief of police on the street and gave him five dollars, asking him not to interfere with his game and he would share the proceeds with him, the game being "a good thing." On the 11th of July Mah Kee appeared before Magistrate Cowan, and pleaded "Not Guilty." Mr. Nowell appeared for the prosecution, and J. E. Wallbridge for the defence. The case attracted considerable interest at the time. It was heard several times, and on July 19 the magistrate discharged the accused. Chief of Police Dean was bound over to prosecute the Chinaman at the sitting of the Supreme Court, and the case came up this morning. Practically the same evidence was heard as at the former trial. The accused, Mah Kee, was found guilty, and ordered to pay a fine of \$100.00.

In the morning a young man named D. R. Kerr, was charged with obtaining money under false pretences. He passed checks for fifteen and twenty dollars on the Queen's and Jasper hotels. He was sentenced to three years at Stony Mountain.

C. D. Hensell, charged with attempted murder, appeared before the Chief Justice yesterday afternoon, and elected to be tried by jury. C.

deW, MacDonald is conducting the prosecution, and C. W. Cross and O. M. Biggar, the defense. The case against Hensell is well known. He is accused of attempting to murder or to do grievous bodily harm to Chas. Campbell last Saturday evening in the office of the Grand Central Hotel.

H.B.K. BRAND BIG SHIRT

Made big enough for a big man to work in with comfort. Has more material in it than any other brand of shirt in Canada. Made on the H.B.K. scale it requires 30½ to 42 yards per dozen, whereas common shirts have only 32 to 33 yards.

That's the reason why the H.B.K. "Big" Shirt never chafes the armpits, is never tight at the neck or wristbands, is always loose, full and comfortable and wears well.

Each shirt bears a tiny book that tells the whole history of the "Big" Shirt, and also contains a notarial declaration that the H.B.K. "Big" Shirt contains 39½ to 42 yards of material per dozen.

PROVINCIAL AUTONOMY

The letter of Premier Laurier to Premier Haultain stating that if his government was returned to power the question of provincial autonomy would be taken up with a view to settlement, brings that question to the front as a live issue. The government of Premier Laurier has certainly been returned to power, and the question may be opened at any time. The North-West Government and Assembly is necessarily one of the parties to these prospective negotiations, and it is most necessary that both assembly and government should be closely in touch with the public sentiment of the Territories on the question while negotiations are being carried on. As yet public opinion on the subject can scarcely be said to be formed. The recent mission of Premier Haultain to the Edmonton constituency disclosed the fact that the question was as yet unconsidered either in principle or detail by the majority of the people, although he persistently declared that the legislature and the people were unanimously in favor of autonomy. A serious change in the powers of local self government of a country so vast and with possibilities so great, as the Territories is necessarily a public question of first-class importance, not only to the residents but throughout Canada, and should not be lightly entered upon under any circumstances, much less without full knowledge of the facts, and without careful consideration of their future bearings. It is a fair proposition that negotiations so important to the future of the Territories and their welfare should not be entered upon without the full sanction of the Territorial legislature—a sanction which cannot be properly given while seven seats are vacant.

These seats should be filled before the North-West Government enters into any negotiations with the Federal Government on the subject of provincial autonomy. The bye-elections to fill these vacancies would permit an opportunity to the people of at least these constituencies to express their views on the question from a purely Territorial standpoint. Should the opportunity occur it is to be hoped that it will be taken full advantage of, and that representatives will be returned, who will hold views in accord with the public interest, will be able, and have the courage to express their views convincingly in the Assembly or elsewhere.

A country so vast and so uniformly fertile as the Territories are, is clearly destined to be the home of a vast population, and especially during the period of its most rapid growth, will have many and urgent and rapidly growing needs proportioned to its spread and increase. At present our population is small in proportion to our area, and therefore small in comparison with what it necessarily will be before many years. To enter upon the fixed and ordinary financial condition of a province at the present time, on an arrangement based upon our present small population—and population on the basis of provincial apportionments—would be to put ourselves at a financial disadvantage before many years.

no matter how favorable the terms at present accorded might be.

Apparently from the tenor of Premier Haultain's remarks at Edmonton and elsewhere, this is a feature of the case which has not struck him at all forcibly. Give us provincial powers and responsibilities he says, in effect—give us the power to borrow money and to sell lands, and the paltry cash subsidy which the other provinces receive on their population will make little difference to us. And it would not for a time. The borrowing of millions on the security of the public lands is certainly an attractive program—to those who would, or might expect to handle the money thus procured; but it is not attractive to those who would have to pay the interest on the borrowings or to pay a price for the land. Free homestead land and light taxation are among the chief causes of the settlement and prosperity of the North-West, and we of the North-West, whose future depends upon its further success, cannot afford to endorse a policy, the avowed purpose of which is, as stated by both Mr. Borden in parliament, and by Mr. Haultain in the assembly, to meet present requirements by placing a load of debt upon the taxpayer, or to obstruct settlement by putting a price on homesteads, rather than by securing a fair yearly revenue to meet a reasonable yearly expenditure, both keeping pace with the rapid growth of population as at present.

Under the scheme of confederation the various provinces find their chief source of revenue in the cash subsidy which they receive from the Dominion. It is the fixed nature of this subsidy which carries with it the borrowing power. The Territories are not prohibited from borrowing money as they are at present situated. But not having a fixed subsidy they have not the credit upon which to borrow; and cannot have until they secure fixed assets of one kind or another, or adopt the policy of direct taxation. The provincial subsidy in all but one of its features, is a fixed amount, based upon population, actual or estimated, and not subject to increase as population increases. This condition of things is suitable enough in the case of the eastern provinces, which entered confederation with their agricultural areas already developed, and where subsequent increase of population has been in the towns. But it has not been found suitable at all in Manitoba or British Columbia where a small original population occupied a region suited for a large population, which afterwards increased the needs of the local government without correspondingly increasing its resources. The consequence has been a crippled public service, high taxation, and a load of debt. To-day, Manitoba carries a three million dollar debt on a subsidy of \$5,000. The net result is an annual interest charge of at least \$120,000 a year. Manitoba has never received control of her public lands, but has received an annual cash payment on account of them. British Columbia, having entered confederation as a sovereign province, has control of all her own resources; her debt is greater than that of Manitoba on a smaller population, and her taxation is the highest in the Dominion. The provincial subsidy has not kept pace with the growing needs of the province caused by growth of population.

As the Territories greatly exceed both Manitoba and British Columbia in possibility of growth of population, it is even more necessary in our case than theirs that whatever arrangement may be made regarding control of lands we must have an annual cash subsidy that will increase with our increase of population.

The subsidies of the provinces are made up by (1) a fixed allowance for legislation, (2) a subsidy per head of

population, which in Manitoba is increased every five years according to population, (3) a fixed allowance on nominal debt account, (4) a fixed allowance on consideration of public lands, received by Manitoba and Prince Edward Island. The allowance for legislation to Manitoba is \$2,000 a year. The per head allowance is 8¢. The allowance on debt account is approximately \$1.67 per head of population estimated when entering confederation. The allowance to Manitoba on her public lands is \$100,000 a year. It is evident that however generous the terms accorded Manitoba were when they were given, the growth of population has outrun them, the main features being stationary, and only 8¢ per head, progressive. The disadvantage at which Manitoba is placed as compared with the Territories by its position in confederation almost stationary subsidy is seen when it is noted that Manitoba on a population of 252,000 receives \$550,000 annually while the Territories with an equal estimated population receives \$1,111,000 this year. While the subsidy to Manitoba has increased from \$477,598 in 1893 to \$553,327 in 1903, the subsidy to the Territories has increased from \$282,281 in 1893 to \$1,111,000 in 1904. Provincial conditions that would tie us down to a similar rate of increase of subsidy as Manitoba, would be a dead weight upon our necks and a hindrance to our progress.

The conditions in the Territories are now, and peculiar as compared with the provinces. The conditions which may suit them do not suit us. To properly meet our needs as they are now being met we must have an arrangement for an annual increase of subsidy based on increase of population, at least up to a number that will represent the general settlement of the Territories. Otherwise provincial autonomy would be a loss and not a gain. The first amount is not so important as the rate of increase. Mr. Haultain's idea seems to be to get autonomy anyhow and fight out the question of terms afterwards. As long as such treatment as we are now receiving from the Federal Government is accorded, the public interests lie in opposing autonomy except on terms suited to our special conditions.

TALBOT'S MAJORITY

The total vote polled in the Strathcona electoral district at the recent election is now given at 5,723, and Talbot's majority, with all returns in, is now 2,233. Talbot has polled 2,857 votes, and his opponents together 1,845, which is less than one-third of the vote polled.

THE C. N. R.

Wm. MacKenzie, president of the Canadian Northern, told the Toronto Globe in an interview that his company had laid 5.5 miles of track this season on their lines in Manitoba and the North-West, and intended to lay 100 miles more. The Canadian Northern has now 1,750 miles of track laid west of Port Arthur. Speaking of the main line to Edmonton he said:

"Our main line has just reached the Saskatchewan near Saskatoon, by way of Grand View. We expect that in about three weeks we will reach the elbow of the North Saskatchewan, and before the season closes we hope to lay the track six miles farther to Battleford. There may be some delay in completing the four large bridges on the main line. That at Saskatoon is now ready to run over. The timber is pretty well all at the Battleford bridge now, having been floated down from Edmonton, and it will be ready in the spring. We will put in steel bridges at these points, but first of all we have to put up wooden structures to carry the steel. We hope to reach Edmonton by October next year. The line is now graded to within one hundred miles of that place. After that we expect to go on beyond Edmonton."

As to the progress on the Prince Albert branch, which leaves Manitoba at the north-west corner and passes due west to Mackenzie, said grading was now done to the South Saskatchewan, fifteen miles from Prince Albert. Trains are running as far as Melfort, a new and flourishing town 62 miles east of Prince Albert, and the track would be laid as far as the south Saskatchewan this year. They would get into Prince Albert, which is on the south bank of the North Saskatchewan, early next year. The bridge at the present end of the grading would be put in first thing in the spring. In Manitoba a few branch lines are now being finished up.

In reply to the question, "Have you any plans for entering British Columbia?" Mr. MacKenzie said:

"We have not taken up any active negotiations for that yet. You know," Mr. MacKenzie added, with a smile, "we expected at one time to be the favored people to build this new transcontinental road. Now we must go along as best we can. It may take a little longer than it otherwise would."

AS TO GRAIN LOCKADE

Wm. MacKenzie, president of the Canadian Northern recently said to the Toronto Globe:

"I think it will be doubtful if 5 per cent of the grain will reach lake ports this year, judging by the way it has been moving up to the present. We have not by 750,000 to 1,000,000 bushels moved as much grain this year as last year to this date. The grain did not commence moving until three weeks later. It is coming pretty fast now, and may make up before the close of navigation. Where grain is moving out I never saw it so slow to the market before. There is hardly any in store. That indicates that the facilities are greatly improved. There is no question about moving the grain in a reasonable time and in a reasonable way. If everybody wants to market on the same day there may be more or less difficulty."

SUPREME COURT

Fritz Friedrichs was charged before Chief Justice Sifton this morning with maiming cattle belonging to J. Strassburg, of Stony Plain. The case was tried by a jury, who after a few minutes deliberation returned a verdict of not guilty, and the accused was discharged. The jury were Messrs. Chisholm, O. H. Bush, Armstrong, Davies, Brunelle, and Harry Goodridge, foreman.

CANDIDATE FOR M. L. A.

Editor Bulletin:

Being asked by many throughout the district to offer myself as a candidate, I declined, but being put in possession of the following requisition from my old neighbors and stalwart pioneers who are the soil builders of our country, I will stand or fall by them and uphold Liberal principles.

To Malcolm McKinley:—

We the undersigned electors of Sturgeon Settlement ask you to be a candidate for M. L. A. in the ensuing election caused by the resignation of our late representative:—

John Harrold, Harry Harrold, Wm Harrold, Neil McLean, J. B. Long, T. A. Tingey, F. O. Calhoun, J. M. Sutherland and J. A. Sutherland.
MALCOLM MCKINLEY.

FIRE BRIGADE MEETING

A well attended meeting of the Fire Brigade was held in the Fire Hall last evening. Chief Johnston occupied the chair. Many matters in connection with the Brigade were dealt with. The resignation of Jasper Avenue was discussed at length. A drop in some of the rates was voted. It was certainly break the hose wagon when being drawn at full gallop. The secretary was instructed to bring this matter to the attention of the city council.

Some time ago the Brigade asked the council for a dozen rubber coats, a dozen raincoats and a dozen rubber boots. Up to the present they have not been received and the secretary was instructed to make enquiries concerning them.

The Fire Brigade's annual At Home will be held this year early in December, probably on the evening of the 8th.

There were other matters of a private nature discussed by the Brigade before the meeting adjourned.

The Canadian Northwest Homestead Regulations

Any even numbered section of Dominion Lands in Manitoba or the Northwest Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age to the extent of one quarter section, of 160 acres, more or less.

ENTRY.—Entry may be made in the district in which the land to be taken is situated, or, if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situated, receive authority for some one to make entry for him. A fee of \$10.00 is charged for a homestead entry.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, reside upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent, may be satisfied by such person residing with the father or mother.

(3) If a settler has obtained a patent for his homestead, or a certificate for the issue of such patent, in the manner prescribed by this Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon said land.

The term "vicinity" used above is meant to indicate the same town, or an adjoining or cornering township.

A settler who avails himself of the provisions of Clause 2, 3 or 4, must or substitute 20 head of stock, with buildings for their accommodation, cultivate 30 acres of his homestead and have besides 80 acres substantial fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd June, 1899.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may be again thrown open for entry.

Application for patent should be made at the end of three years, before the local agent, sub-agent, or Homestead Inspector. Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

Information.—Newly arrived immigrants will receive at the Immigration Office, in Winnipeg, or at any Dominion Lands Office, in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing land to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

JAMES A. SMART,

Deputy Minister of the Interior, N.R.—In addition to Free Grants of land to which the regulations above stated refer, thousands of acres of most desirable lands are available to lease or purchase from railroad and other corporations and private firms in Western Canada.

WILL NOT HAVE FORCED RESPECT

Berlin, November 11.—It is announced that the Emperor has decided to hereafter use the pardoning power liberally in case of Jose Majeste. It has heretofore been practically unknown for the Emperor to pardon a man convicted of this offence.

BRITISH VISITORS

Schenectady, N. Y.—Seventy-five members of the Iron and Steel Institute of England visited the local works of the General Electric Company this afternoon.

THE PRESIDENT'S GUEST

Washington, November 11.—John Morley is being entertained by President Roosevelt.

Will Support Laurier

Montreal, Nov. 8.—It is being stated in Ottawa that Mr. R. Forget, who was elected to represent Charlevoix in the Dominion House will give his independent support to Sir Wilfrid Laurier.

When asked to-day regarding his attitude, Mr. Forget stated that the report was perfectly correct. Prior to his election he had made this statement to the electors and had also repeated it afterwards. Mr. Forget stated that he did not consider himself bound or tied to any party, and proposed to act accordingly.

Mr. Forget's majority in Charlevoix was, he states, 117 and not 70 or 80 as had previously been reported.

Brazil Buying Warships

New York, Nov. 2.—A Rio Janeiro special to the Herald says: A bill for an increase in the army and navy which has been approved by the chamber of deputies and is pending in the senate provides for several war vessels during 1905. The Government will order 13 destroyers of 12,000 tons each and ten torpedo boats of 36 knots. At the present time Brazil is poorly equipped. There are four torpedo gunboats and eight fast torpedo boats, besides some older ones and several miscellaneous vessels.

The Steel Industry

Ottawa, Nov. 8.—John Weill and Paul Hoch, members of the General Products company, of France, are here to interview the members of the Government with a view of getting information to establish industries for the manufacture of steel in this country.

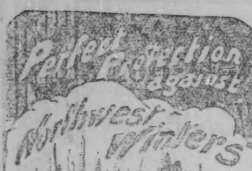

Cattle Shipments

Lacombe Globe:

W. F. Puffer, our local cattle buyer is certainly the busiest man in the town at present. Cattle are pouring in from all parts of the country—cattle that are the pride of the Alberta prairies, and that will outclass the corn fed animal at any time. Mr. Puffer has been on the road, almost continually for the past three months, buying beef, cattle and feeders, which were delivered last week. The following shipments have been made: 18 cars were shipped on November 3; 14 cars on November 4; and 4 cars on November 5. Mr. Puffer also purchased 300 head of cattle delivered to M. Kroll's ranch 30 miles south-east of Lacombe, where they will be branded and distributed for winter feeding. This makes a total of 881 head of cattle purchased by Mr. Puffer this fall.

Municipal Owned Telephones
Standard, November 8:

At the Regina city council meeting last night Alderman McCarthy declared in favor of a telephone system to be owned and operated by the municipality, and gave notice that at the next meeting of the council he would introduce a by-law to that effect.

Ordinary underwear is made for ordinary climates. Most makers can't appreciate the intense cold of the Northwest. Their garments are all right for a few days, but entirely too light for 30 to 50 below zero.

Stanfield's Unshrinkable Underwear

is knitted in special weights, especially for the severe winters of this section. It's planned by men who know the climate and the people—know how to knit it thick enough for warmth, yet not too heavy for comfort.

Best of all—Stanfield's is guaranteed absolutely unshrinkable. All sizes to perfectly fit every figure. Leading dealers throughout the West sell Stanfield's.

THE GUM REMOVED

THE microscope shows each leaf of tobacco is covered with long soft hairs which exude a viscid juice.

This is called the gum, and it covers the surface with a moist glutinous exudation.

Tobacco, to be good, must have all this gum driven out.

In Manicragua I procure tobacco that has all this gum "sweated" by the natural heat of the climate.

Only the dry, well matured leaf remains—the leaf that when I age for three years will give a cool, fragrant smoke—odorless and aromatic—that's the characteristic odor of my Pharaoh.

HUNTING AND PROSPECTING

A. Rochford and B. Michelson arrived in the city yesterday from a very interesting trip through the north country. Leaving Queneville, British Columbia, they travelled along the head waters of the Fraser river, crossed the mountains by the Pine river Pass, and came on to Edmonton by way of Lesser Slave Lake. They had a most interesting trip. Mr. Michelson is a graduate of Cambridge University, and is a young man of considerable means. He is greatly pleased with his travels in the north, and is leaving

for England with a view of settling his affairs there and then coming to Edmonton to reside. He is greatly taken with our climate and the immense natural and undeveloped resources of our great north country. He and his party did some prospecting, and staked several claims along the upper Fraser. They greatly enjoyed the hunting and trapping in the north, and look forward to another similar trip.

They left yesterday on their way to the old country.

THE WEATHER

It would be hard to conceive of better weather than Northern Alberta has been enjoying during the past month or two. The days have been warm bright and sunny, and the nights clear and cool. Scarcely could more exhilarating and invigorating weather be asked for. With the exception of a very light fall, not enough to whiten the ground, some weeks ago, we have had no snow. Cold weather with snow and raw winds is reported from the south at intervals, but the summerlike weather has continued in Northern Alberta. Last year Northern Alberta had a snowfall of three inches during the month of October. Two years ago on the 7th of November, the Saskatchewan was frozen over solidly. Last year at this time the river was running thick with ice, and the ground frozen stiff on the 10th. On the 13th last year the ice on the river blocked up below the bridge and by the 18th teams were were crossing on the ice at Fort Saskatchewan. Last year on the 16th cutters were running, and the thermometer dropped to fifteen below zero. The pleasant weather still continues here, with no sign of its breaking up.

—Next Thursday, November 17th is Thanksgiving Day throughout Canada.

—Walter Scott's majority in West Assiniboia is now 812 with all returns in.

—J. A. Wright will conduct a sale of cattle on the market square, on November 18.

—The Alberta College will have their formal opening on the evening of November 18.

—The Edmonton junior hockey club will hold an organization meeting on Friday evening of this week.

—There were one hundred and seventy-eight homestead entries made at Battleford land office during the month of October.

—The Edmonton Junior Hockey Club will hold an organization meeting in the telegraph office this evening.

—An addition, 12 by 18 feet, is being built to the Edmonton post office, to afford increased accommodation.

—Williamson Bros. shipped a double deck car of hogs to Calgary on Tuesday. The price paid for the hogs ranged from 31-4 to 33-4.

—The Bank of Commerce has opened a branch at Nanaimo, on the C. & E. line, south of Calgary. Four years ago there was not even a section road at Nanaimo.

—A sidewalk has been built from the Edmonton Hotel across the railway tracks and down the west side of Currie street to serve the residents on the flats near the Dowling mill.

—A 12 by 18 foot addition is being constructed to the rear of the post office. This will give increased accommodation which is especially necessary for the handling of the Christmas mail.

—The adjourned council meeting which had been called for last evening failed to materialize. The council is in committee of the whole this afternoon and the next meeting will be the regular Tuesday evening meeting.
